## Project: 1

- **Project Name** : LOYDS (LBG)
- **Industry and Business of Client** : BANK DOMAIN
- **Duration** : Nov 2017 to Jan 2019
- **Tools &** : POWER BI
- **Role** : POWER DEVELOPER
- **Team Size** : 3

## Description:

The bank merged first with the newly demutualised Cheltenham & Gloucester Building Society, then with the TSB Group in 1995. The C&G acquisition gave Lloyds a large stake in the UK mortgage lending market. The TSB merger was structured as a reverse takeover; Lloyds Bank Plc was delisted from the London Stock Exchange and TSB Group plc was renamed Lloyds TSB Group plc on 28 December, with former Lloyds Bank shareholders owning a 70% equity interest in the share capital, effected through a scheme of arrangement. TSB Bank plc transferred engagements to Lloyds Bank Plc which then changed its name to Lloyds TSB Bank plc; at the same time, TSB Bank Scotland plc absorbed Lloyds' three Scottish branches becoming Lloyds TSB Scotland plc.

## Responsibilities:

- Proficient at data visualization using **Power BI** and strong application development.
- Good Experience on Implementation of **Row Level Security** by defining various constraints for each defined **ROLE**.
- Expert creating different **visualizations** using Slicers, Lines, Pies, Histograms, Maps, Scatter, Treemaps, etc.
- Maintaining and Supporting operational **reports, dashboards, and scorecards** using **Microsoft Power BI**.
- Having good Experience in creating **dashboards**, volume reports, operating summaries and graphs.
- Expert in publishing **reports** to **app.powerbi.com** and setting up the necessary connection details and scheduling.

## Declaration

- I hereby declare that all the information furnished above is true to the best of my knowledge.
