

Career Summery

- **3+ Years of Experience in Automation Testing using Java with selenium Web-Driver.**
- **Good Experience in API Testing, Functional Testing, Database Testing, Manual Testing.**
- **Good knowledge of Core Java concepts and OOPS concepts.**
- **Sound knowledge in Software Development and Software Testing Life Cycle.**
- **Experience in API testing using Postman Tool.**

Position of Responsibilities

- Understand and Analyzing **user stories in Sprint Backlog.**
- Generating the **Test Scenarios and Test cases** and **Execution of Test Case.**
- Experienced in all phases of Software Testing Life cycle (**STLC**) with good experience in the **Sanity Testing, Functional Testing, Regression Testing, Retesting, Database Testing, Performance Testing, Load Testing**
- Excellent understanding of **Defect Life Cycle, Defect Reporting.**
- Implemented **Agile** Methodology process in the Project.
- Experience in executing **SQL** Queries to perform **Database testing.**
- Basic Knowledge about **UNIX** Commands.
- Experienced in Handling Popups, List Box & Actions, **TestNG & Annotations**, designing **POM** (Page Object Model) classes, familiar with use of **MAVEN, GitHub, Listeners.**
- Execute automated **regression test** runs, analyze failures and report results
- Communicate test progress, test results, **defects metrics** to project stakeholders and management on a regular basis and ensure timely delivery.
- Advanced level hands on experience with **Java programming language** and **Eclipse IDE** Environment
- Experience writing test automation code with various types of **framework** approaches **Data Driven**
- Well experienced in delivering **end-to-end automated test scripts** across projects
- Strong knowledge of various testing methodologies, test processes, test automation techniques, test design principles and agile project implementation life cycle
- Good understanding of **Object-Oriented Programming** design principles and concepts

Technical Expertise

- Programming: Core JAVA, SQL.
- Testing Tools: **Selenium**
- Project Management Tool: **JIRA**
- Test Runner Tool: **TestNG**
- **Data Driven Framework**
- Software Management Tool: **MAVEN**
- API testing: **Postman too** (Web Services API: **REST API**)
- Operating System: Windows, **Unix, Linux**
- **GitHub** and **Jenkins**
- **POM, Agile Methodology**

Professional QA Experience

Working as a **Software Test Analyst** with **Capgemini Bangalore** from July 2019

Project #2 Name: Merrill Edge Market Pro

Domain: Investment Banking

Description: Merrill Edge are helping, simplify banking and investing, advancing better money habits and making an impact in communities around the world. The Merrill Edge app provides us the access to the tools to help us make more informed investing decisions on devices. Trade stocks, mutual funds and options, and review open orders.

Project #1 Name: CRM billing System

Domain: Telecom Billing

Description: Service provider with high quality voice and messaging services over broadband network. The Smart Billing and Payment options enable increase in sales and offer a better service to customer, while improving operational efficiencies and reducing cost.

Education Qualification

Bachelors of Engineering from Pune University, Pune Maharashtra.

Personal Details

Date of Birth	: 01/07/1996
Gender	: male
Marital Status	: Unmarried
Languages	: English, Hindi, Marathi.
Address	: Satara, Maharastra 415110

Declaration

I hereby declare that all information given above is true of my best knowledge and belief.
